## Relevant Coursework

- Web Services
- ReactJS
- UI/UX Design
- NextJS
- jQuery
- Vanilla JS
- Java Script
- Framer
- GraphQL
- EmotionJS

## Experience: 2years

### HelloAR  Software Engineer                                        March 2024 –Present
Bangalore, Karnataka

*HelloRamp*

- Led the restructuring and complete redesign of the HelloRamp web and mobile applications, enhancing user experience and interface using **ReactJS, HTML, and JSS.**
- Implemented **UI/UX** improvements based on continuous user feedback sessions, aligning the design with user needs and preferences.
- Collaborated closely with cross-functional teams in a **fast-paced startup culture** to deliver high-quality, user-centric solutions.
- Utilized **JavaScript** for dynamic features and seamless integration, ensuring a responsive and intuitive **user experience across platforms**.

### Cheers Infinity  Frontend Developer                                 Sep 2022 – Oct 23
Bangalore, Karnataka

- Developed responsive and visually appealing web interfaces using **ReactJS** for Cheers Infinity's projects, ensuring a consistent user experience across devices.
- Collaborated with the design team to seamlessly integrate **UI/UX** designs, enhancing overall interface aesthetics and usability.
- **Integrated third-party APIs** and optimized **web application** performance, resulting in improved loading times and user satisfaction.
- Utilized **ReactJS, NextJS, and Bootstrap** to build and maintain robust, scalable, and high-performance **web applications**.
- Worked closely with Sr. developers to **troubleshoot issues** and provide solutions.

### Freelance                                                          Dec 2021 – Nov 22
Headspur.IT                                                                   Remote

- Developed an EdTech platform with **CRUD features**, using **NextJS and vanilla JS** to create a seamless experience for both creators and users.
- Implemented the Creator part of the platform, enabling the upload of case studies with architectural blueprints, transcripts, code, and video tutorials, utilizing **nx and Bootstrap** for efficient and scalable development.
- Built the User part, where users can sign up, access, and purchase case studies, ensuring a smooth user journey with **NextJS and vanilla JS**.
- Integrated Framer for interactive and responsive **UI elements**, enhancing the overall user experience on the platform.

10xtechlabs

- Developed a range of features for a YC-funded client at Headspur.it, ensuring code optimization and readability using **ReactJS and NextJS**.
- Suggested and implemented minimalistic design principles, leveraging **JSS and Bootstrap** for clean, efficient interfaces.
- Actively engaged with the client to fully understand their needs, addressing concerns with effective solutions using **vanilla JS and ReactJS**.
- Maintained a high standard of code quality and performance, utilizing a combination of **ReactJS, NextJS, and Bootstrap** to deliver scalable and user-friendly applications.

TranslateZ

- Built TranslateZ's official site from scratch using **NextJS**, creating reusable and optimized components for scalability and performance.

- Reviewed and debugged code, correcting issues efficiently with the help of **EmotionJS and Bootstrap**, ensuring a seamless user experience.

- Contributed ideas and suggestions in team meetings, delivering updates on deadlines, designs, and enhancements, leveraging **GraphQL and Strapi** for dynamic content management.

- Collaborated with engineering team members to assess system loads and develop improvement plans, integrating **Framer** for responsive and interactive UI elements.

## Education

**UpGrad.com**                                                                                          **Oct 2023 – June 24**
*Advance full stack development Bootcamp*                                                                       *Remote*

**Bhopal School of Social Sciences**                                                                **July 2016 – May 2019**
*B.A*                                                                                   *Bhopal, Madhya Pradesh, India*

**Gyan ganga international academy**                                                                **July 2015 – May 2016**
*Higher Secondary*                                                                      *Bhopal, Madhya Pradesh, India*

## Technical Skills

**Programming**: **Java Script, Next.js, React.js, jQuery**

**Familiar**: **Github, BitBucket, Bootstrap, Framer-motion, VS Code**

## Certificates / Extracurricular

- Completed certification in **Javascript -Advance**     🔗 Certification

- Completed certification in **Jquery**     🔗 Certification

- **HTML/CSS** Public Test Passed on July 14, 2021 - Ranked in the Top 10%     🔗 Certification

- Participated in and won several local singing competitions, demonstrating strong vocal abilities and a love for music.
